

Guide to Changing a Post Cassette

1 →

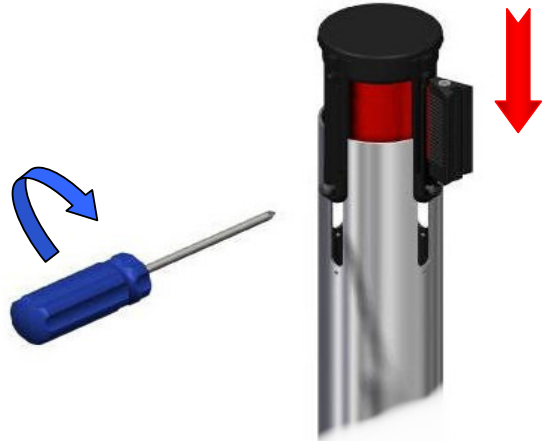

1) Loosen all spline screws but do not remove fully.

Pull the cassette up and out of the post.

← 2

2) Align the splines of the new cassette to the slots in the post and push down.

Tighten the spline screws securely.

or
for Cassette Head....

1 →

1) Turn cassette head anti-clockwise to remove from the post.

2) Locate new head fixing onto tie bar and turn clockwise until secure.

← 2
